Legiant Offers Automated Online Backup Services through Partnership with AmeriVault

AUSTIN, TX – January 15, 2008 – Legiant, a leading provider of time and attendance and workforce productivity solutions, today has announced a partnership with AmeriVault enabling Legiant to offer automated data protection services to clients.

Ensuring application availability, audit controls, and historical retentions are key business requirements for any time and attendance system. AmeriVault provides a one-step, turn-key online backup and offsite protection solution for this mission critical application.

Automated and secure, online backup reduces backup times through compression and deduplication. In addition, administrators are able to manage multiple offices with diverse environments through one intuitive interface. With online backup, clients enjoy the ultimate in backup with no investment in hardware, software, or maintenance.

“As a preeminent provider of online backup for nearly 10 years, AmeriVault is enabling Legiant clients to simplify management of backup administration, achieve simultaneous backup and disaster recovery preparation, reduce their backup windows, and eliminate recovery failure,” said Legiant President, Walter Ross.

Online backup is also compliant with the data safeguard regulations established by Sarbanes-Oxley, HIPAA, FINRA, and Gramm-Leach-Bliley, among others.

About Legiant

Founded in 1998, Legiant is a leader in web-based time and attendance and time accounting systems for payroll, attendance, productivity, leave and project tracking. Our flexible productivity time tracking solutions help enterprises maximize the profitability and productivity of their entire workforce. Our solutions can be customized to meet the unique needs of your organization whether you are looking for a mobile time tracking technology, an automatic digital time and attendance system, or any one of Legiant's wide range of precision time and attendance management systems.

Legiant integrates software, hardware, and professional services to create a comprehensive time accounting solution. Our applications such as Legiant Timecard and Legiant Express are intuitive, easy to use and accessible from anywhere with a web browser.

About AmeriVault

With nearly 1,000 clients across all 50 states and 14 countries, AmeriVault is a proven leader in managed data protection and offsite storage services, including online backup, disk-based recovery, high-

availability, data lifecycle and archiving solutions. Backed by a SAS 70 (Type II) certification, AmeriVault's solutions employ aggressive security and redundancy safeguards while ensuring business continuity, seamless disaster recovery, and regulatory compliance.

Whether data requires continuous backup, high availability, or data archiving, AmeriVault's solutions are tailored according to data value, lifecycle, regulated attributes, and recovery objectives, as well as desired redundancies and price points.

AmeriVault combines the highest levels of customer service, premium solutions, award-winning software, and secure world-class datacenters to deliver *Excellence in Data Protection*.[®]
