Legiant Provides Easy Migration Program for Stromberg Clients

AUSTIN, TX – October 22, 2009 –Legiant, a leading provider of time and attendance systems, unveiled their Legiant Migration Program for Stromberg customers. The Legiant Migration Program offers Stromberg customers a fast, low-risk transition to the Legiant Timecard system. The program was developed in response to concerns from current Stromberg customers regarding the future of their time keeping system.

Legiant has successfully replaced Stromberg systems for the past ten years. Legiant's flagship time and attendance system, Legiant Timecard, is geared toward mid-size organizations with simple to complex rule configurations. "We understand why customers selected Stromberg and we have the capability to meet or exceed their expectations," said Walter Ross, chief executive officer for Legiant. "Our experience migrating systems from Stromberg to Legiant provides us with a unique opportunity to support Stromberg clients. This program will provide a soft landing for organizations currently using Stromberg."

The Legiant Migration Program focuses on three areas that are typically the biggest concerns for Stromberg clients switching to a new time and attendance system: compatibility with current time clocks, maintenance plans, and matching the current configuration of rules. In most cases, Legiant has the ability to integrate with the clock hardware Stromberg clients already have in place. However, the program provides a trade-in discount if current clocks are not compatible. Legiant utilizes a fixed bid services model that ensures hidden costs are not an issue with support of the software. Additionally, Legiant has the tools available to rapidly convert existing Stromberg configurations to the Legiant Timecard system.

About Legiant

Legiant is a leading provider of web-based time and attendance software for payroll, attendance, productivity, leave and project tracking. Flexible time and attendance tracking solutions help Legiant's enterprise customers maximize the profitability and productivity of their workforce. Solutions such as Legiant Timecard™ and Legiant Express™ can be customized to meet the unique needs of any

organization including mobile workforce tracking, software-as-a-service and real-time reporting. Legiant combines software, hardware, and professional services to create a comprehensive time tracking solution, easy-to-use and accessible from anywhere through a Web-based interface. Legiant integrates with the majority of payroll systems and supports biometric data collection devices.
